#### **Facilitator:**

#### **Julia Tarnawsky**

Julia has taught on the Soul and the After-Life over several years, in teaching tours with the NZ Theosophical Society, in a webinar series and in seminars at the Southern Lights Centre.

The interconnection between the Soul and the After-life was her thesis topic for her Masters Degree in Science (Esoteric Psychology) with the University of the Seven Rays, USA.

#### **Rationale for the Workshop**

My research suggests that we are on the brink of a new understanding of death and the After-Life. This will greatly diminish the anxiety and foreboding associated with death.

Basically, we go to the consciousness zone that has been the most habitual and familiar on Earth. So we invest now in our afterlife “real estate” – the consciousness that is real for each of us.

The workshop is based on the ageless wisdom teachings in the books by Alice A. Bailey and is based on Christian, Buddhist and Hindu concepts adapted for the western psyche.

#### **The workshop will enable participants to:**

- ask questions and share experiences
- understand what to expect in the After-Life
- trace a map of the After-Life zones
- Explore the connection between consciousness and the soul
- discuss contact between the living and the deceased
- look at many sources of information on the afterlife – NDE’s, trance channelling, telepathic rapport, dictated messages, electronic communication, spiritual teachings
